

This diagram shows a detailed cross-section of the device along a different plane than Fig. 1. It illustrates the internal structure of the housing and the arrangement of various components. Key features include:

- Housing Structure:** The outer casing is composed of several layers, including a base layer (5), an intermediate layer (6), and an inner lining (7). A gasket or seal (8) is positioned between the housing and the internal components.
- Internal Components:** The interior contains a series of stacked elements, possibly filters or membranes, labeled with numerals such as 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.
- Flow Path:** Arrows indicate the direction of fluid flow through the device, entering from the top and exiting from the bottom.
